Bricks 4 Kidz

PRE-REGISTRATION REQUIRED

(Register online @ www.ci.norwalk.ia.us, Parks and Recreation office, or by mail)

Bricks 4 Kidz programs are kid-tested and educator-approved to deliver valuable learning experiences that correlate to a variety of cross-disciplinary curriculum objectives. Every lesson introduces kids to enriching content related to the model, presented in a question and answer format designed to spark the children's curiosity and draw them into a discussion. The Bricks 4 Kidz approach to learning connects with the auditory, visual and kinesthetic learning styles of children as students listen to the lesson presented by the teacher, look at the model plans, and use their hands to put the model together.

Using LEGO bricks your students already know and love, will get them excited about learning. Students will build in teams Bricks 4 Kidz models of natural disasters, and discuss the geological forces that bring about these powerful natural disasters. Children will learn what causes them and what their effects are. Once the power functions are added to the models the fun begins. We will meet after school at Lakewood in the science room from 3:15 to 4:15p.
